ENFIELD Council

Family fit

The Ikhlef family have lived in their house in Southgate for about five years.

Front row from left: Bill Steadman and Brian Gormley, both Enfield Council with Abdelmalek Ikhlef. Back row: Nur Zoulikha, Hana, Furishia and Hamzah Ikhlef.

We've recently carried out extensive work to the family's home to better meet their needs with an extension with shower room, front and rear ramps and raised back patio, handrails, double glazing and new soffits and facias, new kitchen and boiler.

The whole family seem to be very happy with their newly refurbished home and Mum, Furishma, said particularly for their second daughter Nur-Zoulikha: *"It's made such a big difference to her life."* Son, Hamzah seemed in great spirits too, 'high-fiving' us all and very proud of his shiny new school shoes.

Brian Gormley from our Aids and Adaptations Team said: *"Although we have limited money for this type of work, it's really good when a project delivers such improvements to people's lives as this. Jim Batten, his team from Stamford Contracts and Stuart McClinton from Hadley Design Associates, have worked hard to ensure that their home now really works for them."*

With 90% customer satisfaction feedback across the team's work, it's reassuring that residents are clearly happy with the adaptations that we've made to their homes.

The ground floor wetroom, part of the extension.

The back of the property showing the new extension.
